*Nobody Works Harder*

## SAFETY / TRAINING

### Safety Record: Experience Modification Rate at .71

More than 4,000 hours of safety & skill training completed since 2006

At Energy Air, we have developed a culture around promoting safety and developing our employees through education and training. We are committed to providing the safest workplace at every level. Our zero-injury approach and commitment to safety and skill training has garnered us more than 22 industry awards. We have been able to achieve our low .71 Experience Modification Rate through the implementation of strict safety standards and practices.

#### Safety Steps

- Personal Protective Equipment
- Pre-Work Risk Assessment
- Tool and Equipment Inspections
- Weekly Jobsite Toolbox Talks
- Jobsite Safety Checklists
- Immediate and Accurate Accident Investigation & Reporting
- Near Miss Reporting
- Pre-employment Drug Screening & Background Checks

#### Safety Training

- In-house training and certifications for Aerial, Rough Terrain Forklift, Hilti Power Tools, Scissors/Boom Lift and CPR/First Aid.
- In-house OSHA training, plus a number of OSHA 500 trainers.
- 90% of field team is OSHA certified.
- Access to Toolbox Talks.
- Classes taught in both English and Spanish.

#### Trained, Professional Field Team

Our in-house training facility allows us to teach our team the Energy Air methods to ensure your project runs smoothly and on-schedule. Excellence is expected at every level, and we provide the tools, knowledge and resources to accomplish this.

#### Innovative Training & Education Programs

Our in-house institute provides a training environment unparalleled to any other. With the vast experience of our 27 instructors, we have developed a complete curriculum in both English and Spanish that covers all aspects of HVAC, including:
